

CONTENTS

	Page
Re-evaluation of protein requirements of growing-fattening swine as influenced by feeding an antibiotic. D. V. Catron, A. H. Jensen, P. G. Homeyer, H. M. Maddock and G. C. Ashton	221
Protein and vitamin supplements for growing-fattening pigs on ladino clover and on alfalfa. C. E. Barnhart.....	233
The relationship of protein to pantothenic acid and vitamin B ₁₂ in the growing pig. R. W. Luecke, J. A. Hoefler and F. Thorp, Jr.....	238
Riboflavin deficiency in baby pigs. W. P. Lehrer, Jr. and A. C. Wiese.....	244
The effects of stilbestrol implants on swine of different sexes. A. M. Pearson, G. E. Combs, Jr., H. D. Wallace, R. B. Sleeth, J. W. Stroud, J. M. Shepherd and Marvin Koger.....	251
The use of chromic oxide in digestibility studies with pigs fed <i>ad libitum</i> in the barn. A. F. Schurch, E. W. Crampton, S. R. Haskell and L. E. Lloyd.....	261
The minimum requirement of young pigs for a purified source of carotene. J. F. Hentges, Jr., R. H. Grummer, P. H. Phillips and G. Bohstedt.....	266
The effect of thyroid on carotenoid metabolism in swine. R. W. Swick, R. H. Grummer and C. A. Baumann.....	273
Swine dysentery: treatment with 4-nitro and 3-nitro-4-hydroxy phenyl arsonic acids and antibiotics. Lawrence E. Carpenter and Nora L. Larson.....	282
Some physiological causes of genetically different rates of growth in swine. D. M. Baird, A. V. Nalbandov and H. W. Norton.....	292
Selection for fertility in two inbred lines of swine. Neil C. Fine and Laurence M. Winters..	301
Mechanical measurement of fatness and carcass value on live hogs. L. N. Hazel and E. A. Kline	313
A method for measuring the proportion of fat and lean tissue in swine carcasses. W. J. Aunan and L. M. Winters.....	319
Alleviation of cobalt toxicity in calves by methionine administration. K. M. Dunn, R. E. Ely and C. F. Huffman.....	326
A study of vitamin B ₁₂ deficiency in the calf. Harold H. Draper, J. T. Sime and B. Connor Johnson	332
Feed supplement containing aureomycin and vitamin B ₁₂ for dairy calves. A. M. MacKay, W. H. Riddell and R. Fitzsimmons.....	341
The causes of bovine metestrus bleeding. W. Hansel and S. A. Asdell.....	346
The fertility of cows inseminated at various intervals after calving. F. P. Shannon, G. W. Salisbury and N. L. VanDemark.....	355
Heritability of grade and type in range beef cattle. Marvin Koger and J. H. Knox.....	361
Relationships of measurements of live animals to weights of wholesale cuts of beef. F. E. White and W. W. Green.....	370
Effect of fattening upon certain characteristics of connective tissue in aged cows. W. E. Batterman, R. W. Bray and P. H. Phillips.....	385
Further determinations of the nutritive values of forages. R. W. Swift, R. L. Cowan, G. P. Barron, K. H. Maddy, E. C. Grose and J. B. Washko.....	389
The comparative nutrient content of field-cured and barn-cured alfalfa hay. M. H. Bert, H. H. Mitchell, F. M. Crawford and E. W. Lehmann.....	400
Rate of vitamin D formation in hay. J. A. Newlander and W. H. Riddell.....	419
The digestion of protein <i>in vitro</i> as influenced by extracts from soybean forage. K. A. Kendall and R. W. Touchberry.....	422
The effect of drying temperature upon the nutritive value and commercial grade of corn. I. L. Hathaway, F. D. Yung and T. A. Kiesselbach.....	430
Memorials	441
News and Notes.....	443

—————

Contents of previous issues of the JOURNAL OF ANIMAL SCIENCE are indexed in the Agricultural Index which is available in most libraries and in the November issue of each complete volume of the JOURNAL.
