PRESIDENT'S ADDRESS:	
High Standards in Live Stock Research— <i>W. E. Carroll</i>	11
OPENING SESSION:	
A Symposium on the Economic Aspects of Fats and Oils in Relation to American Agriculture	
An Outline of the Supply and Utilization of Fats and Oils in the United States— <i>E. J. Working</i>	16
The International Scope of the Oils and Fats Problem— <i>J. D. Craig</i>	20
Competitive Position of American Lard— <i>T. W. Schultz</i>	28
What Should Be the Ultimate Aim of the United States Regarding the Utilization of Fats and Oils?— <i>N. E. Whitney</i>	32
DAIRY CATTLE:	
Minerals in the Nutrition of Dairy Cattle— <i>C. F. Huffman</i> ..	44
The Relation Between the Color and Vitamin A of Butter and the Feed of the Cow— <i>H. T. Converse, H. G. Wiseman, and E. B. Meigs</i>	50
Influence of Breed and Ration on the Carotene and Vitamin A Content of Milk— <i>W. M. Beeson</i>	54
Factors Associated with Breeding Efficiency in Dairy Cattle— <i>A. B. Chapman and L. E. Casida</i>	57
BEEF CATTLE:	
Feeding Cattle on Native Grass in Southwestern Nebraska— <i>M. L. Baker</i>	63
Creep Feeding Range Calves— <i>E. B. Powell</i>	65
Fattening Cattle on Pasture— <i>C. I. Bray</i>	65
The Forage Consumption of Grazing Steers— <i>W. P. Garrigus</i>	66
The Effect of Fertilization on the Nutritive Value of Pasture Herbage— <i>E. W. Crampton</i>	69
Developing New Types of Beef Cattle for Semi-Tropical Conditions— <i>W. H. Black</i>	71
An All-Purpose Supplement— <i>Paul Gerlaugh</i>	74
Early Cut Versus Late Cut Soybean Hay as Feed for Stockers— <i>E. S. Good and W. J. Harris</i>	77
Methods of Utilizing the Corn Crop for Fattening Steers— <i>G. A. Branaman, G. A. Brown, and R. S. Hudson</i>	78
The Composition of Different Types of Steers— <i>Paul E. Howe and O. G. Hankins</i>	79
Roughages in the Fattening Ration— <i>W. L. Blizzard</i>	80
HORSES:	
A Horseman's Philosophy— <i>D. J. Kays</i>	81
The Partition of Calcium and Inorganic Phosphorus in Equine Serum— <i>P. B. Pearson and H. R. Catchpole</i>	84
Horse Production in the Range Country— <i>D. W. Chittenden</i>	87
Iodine for Brood Mares— <i>B. W. Rodenwold and B. T. Simms</i>	89
The Stallion Owner and Colt Development Projects— <i>P. T. Brown</i>	92
The Hay Requirement of Work Horses Receiving Corn and Cob Meal— <i>A. L. Harvey</i>	
SWINE:	
Relative Efficiency of Limited and Full-Feeding for Fattening Pigs in Dry Lot— <i>J. M. Saint-Pierre, F. B. Morrison, and J. P. Willman</i>	101

TABLE OF CONTENTS

	Page
Relation Between the Refractive Index and the Moisture Content of the Fat and Muscle of the Pig— <i>E. H. Hughes</i>	105
Testing the Comparative Palatability of Different Grains— <i>C. E. Aubel</i>	107
Type Changes in an Inbred Stock of Swine— <i>W. A. Craft</i> ...	110
Production Records as a Basis for Selection— <i>E. F. Ferrin</i> ..	112
Nutritive Value of Packing-House By-Products Prepared by the Wet and Dry Rendering Processes— <i>C. L. Shrewsbury and C. M. Vestal</i>	115
Relation Between Type in Hogs and the Plumpness of Their Hams— <i>O. G. Hankins</i>	120
Soybean Oil Meals Prepared at Different Temperatures as Feed for Pigs— <i>J. W. Hayward, G. Bohstedt, and J. M. Fargo</i>	123
The Relation of Vitamin A to the Eye Development in the Pig— <i>Fred Hale</i>	126
SHEEP AND LAMBS:	
Ground Grain Sorghum Roughages for Fattening Lambs— <i>Rufus F. Cox and W. E. Connell</i>	128
Teaching Wool Grading and Shrinkage Estimation— <i>Robert H. Burns</i>	131
Linseed Meal a Supplement for Alfalfa Hay and Corn for Growing and Fattening Lambs— <i>T. B. Keith and W. L. Henning</i>	140
Pasture Gains of Cattle, Cattle and Sheep, and Sheep <i>M. G. Snell</i>	142
Ovarian Stimulation in Immature Farm Animals— <i>L. E. Casida</i>	144
Our Emergency Situation and Program with Regard to Sheep Production— <i>W. E. Morris</i>	146
Discussion— <i>James Lacey</i>	149
The Coming Five Years in the Purebred Sheep Business— <i>H. C. Gardiner</i>	151
A Report of Progress with Record of Performance Studies— <i>D. A. Spencer</i>	151
When to Cut Cereal Hay— <i>J. Sotola</i>	152
TEACHING:	
Suggested Courses for Students of Animal Husbandry— <i>W. A. Ruth</i>	154
A Suggested Introductory Course in Animal Husbandry— <i>H. H. Kildee</i>	165
The Importance of the Teacher in Teaching— <i>H. W. Mumford</i>	170
Discussion— <i>Fred S. Hultz</i>	171
EXTENSION:	
Report of Meeting.....	173
A Program in Wool Production and Marketing— <i>L. A. Kaufman</i>	174
Reflecting to Live Stock Producers the Consumer's Preference in Meat Animals— <i>Edward F. Wilson</i>	176
NUTRITION:	
The Effect of a Low Protein Ration on the Prenatal and Postnatal Development of the Rat— <i>C. P. Thompson</i>	177

TABLE OF CONTENTS

	Page
Rate of Growth in Relation to the Plane of Protein Intake— <i>A. G. Hogan, S. R. Johnson, and U. S. Ashworth</i>	179
The Plane of Protein Intake as Affecting Food Utilization— <i>E. B. Forbes, R. W. Swift, Alex Black, and O. J. Kahlenberg</i>	181
The Effect Upon the Antirachitic Activity of Their Milk When Ewes Are Exposed to Sunshine and Ultraviolet Rays— <i>Wm. Gordon Kirk, B. H. Thomas, and C. C. Culbertson</i>	182
Calcium Carbonate vs. Calcium Sulphate in Swine Rations— <i>C. W. McCampbell and C. E. Aubel</i>	189
Variations in the Carotene Content of Farm Feeds— <i>L. A. Shinn, E. A. Kane, H. G. Wiseman and C. A. Cary</i>	190
The Effect of Ingesting Soybeans and Oils Differing Widely in Their Iodine Numbers upon the Firmness of Beef Fat— <i>B. H. Thomas, C. C. Culbertson, and Fred Beard</i>	193
Glandular Response to Fluorine in the Ration— <i>Paul H. Phillips</i>	200
GENETICS:	
The Correlation of Progress in Genetic Research with the Prevailing Practices in Animal Breeding— <i>Hugh C. McPhee</i>	201
Discussion— <i>W. A. Craft</i>	203
Artificial Insemination in Light Horse Breeding— <i>W. S. Anderson</i>	205
Some Relations of Glutathione with Growth and Hereditary Size— <i>P. W. Gregory and Harold Goss</i>	208
Inbreeding Swine for Eight Generations— <i>R. E. Hodgson and R. T. Clark</i>	212
The Relationship of Degree of Inbreeding to Size of Litter in Poland China Pigs— <i>James H. Bywaters, C. C. Culbertson, and W. E. Hammond</i>	215
A Six Years' Study of Crossbreeding Swine— <i>L. M. Winters, P. S. Jordan, and O. M. Kiser</i>	218
The Afterbirth as an Index to the Thrift of the Lamb— <i>Fred F. McKenzie, and Ralph Bogart</i>	221
Results of Mating Rams to Angora Female Goats— <i>B. L. Warwick, R. O. Berry, and W. R. Horlacher</i>	225
The Occurrence of the Double-Muscled Character in Pure- bred Beef Cattle— <i>A. D. Weber and Heman L. Ibsen</i>	228
MEATS LUNCHEON:	
Meat in the Reducing Diet— <i>Leo K. Campbell</i>	232
Lard and Its Importance— <i>W. Lee Lewis</i>	235
Retail Cutting Records of Yearling Cattle— <i>G. A. Brown and G. A. Branaman</i>	238
THE FORBES DINNER:	
The Contributions of Ernest Browning Forbes to Animal Husbandry— <i>Paul E. Howe</i>	241
Response: The American Society of Animal Production— <i>E. B. Forbes</i>	247
BUSINESS MEETING:	
Minutes and Committee Reports	254
Treasurer's Report	263
List of Members	264
