

*Journal of*  
**ANIMAL SCIENCE**

VOLUME 36

APRIL 1973

NUMBER 4

**TABLE OF CONTENTS**

<b>Breeding and Genetics</b>	<i>Page</i>
Genotype-Environment Interaction in Sheep. III. Lamb Carcass Traits. <i>R. C. Carter, G. M. Carman and F. S. McClaugherty</i> .....	617
Genotype X Environment Interactions in Beef Sire Evaluation: The Importance of Sire by Year Interactions for Postweaning Traits. <i>S. N. Pani, G. F. Krause and J. F. Lasley</i> .....	622
Heritabilities of and Genetic and Phenotypic Correlations among Some Economically Important Traits of Beef Cattle. <i>James J. Francoise, D. W. Vogt and J. C. Nolan, Jr.</i> .....	635
Genetic Analysis of Prewaning and Postweaning Lamb Growth Traits. <i>F. A. Thrift, J. V. Whiteman and D. D. Kratzer</i> .....	640
Reproductive Efficiency and Viability in Two <i>Bos Indicus</i> and two <i>Bos Taurus</i> Breeds in the Tropics of India and Colombia. <i>L. Lemka, R. E. McDowell, L. D. Van Vleck, H. Guha and J. J. Salazar</i> .....	644
Effects of Breed and Age Classification on Live Weight and Carcass Traits of Steers Shown at International Quality Beef Show. <i>R. D. Scarth, R. G. Kauffman and R. W. Bray</i> .....	653
 <b>Meat Science and Muscle Biology</b>	
Fat Mobilizing Lipase in Relation to Fatness in Lambs. <i>K. S. Sidhu, R. S. Emery, A. F. Parr and R. A. Merkel</i> .....	658
Effect of Diet and Breed on Fatty Acid Composition of Porcine Adipose Tissue. <i>Francisco J. Villegas, H. B. Hedrick, T. L. Veum, K. L. McFate and M. E. Bailey</i> .....	663
 <b>Nonruminant Nutrition</b>	
Apparent Digestibility of the Phosphorus in Sorghum Grain and Soybean Meal for Growing Swine. <i>Bernie Tonroy, M. P. Plumlee, J. H. Conrad and T. R. Cline</i> .....	669
Leucine-Isoleucine Interrelationship in the Young Pig. <i>G. A. Oestemer, L. E. Hanson and R. J. Meade</i> .....	674
Reevaluation of the Isoleucine Requirement of the Young Pig. <i>G. A. Oestemer, L. E. Hanson and R. J. Meade</i> .....	679

<b>Physiology and Endocrinology</b>	<i>Page</i>
Effects of Stress on Cattle with Hereditary Muscular Hypertrophy. <i>J. H. G. Holmes, C. R. Ashmore and D. W. Robinson</i> .....	684
Factors Affecting Dystocia and the Effects of Dystocia on Subsequent Reproduction in Beef Cattle. <i>Danny B. Laster, Hudson A. Glimp, Larry V. Cundiff and Keith E. Gregory</i> .....	695
Zeranol and Dietary Protein Level Effects on Live Performance, Carcass Merit, Certain Endocrine Factors and Blood Metabolite Levels of Steers. <i>M. L. Borger, L. L. Wilson, J. D. Sink, J. H. Ziegler and S. L. Davis</i> .....	706
Zeranol and Dietary Protein Level Effects on DNA, RNA and Protein Composition of Three Muscles and the Relationship to Serum Insulin and GH Levels of Steers. <i>M. L. Borger, J. D. Sink, L. L. Wilson, J. H. Ziegler and S. L. Davis</i> .....	712
Pituitary and Gonadal Hormones Associated with Fertile and Nonfertile Inseminations at Synchronized and Control Estrus. <i>R. P. Wettemann and H. D. Hafjs</i> .....	716
Effects of Methallibure on Early Pregnancy in Swine. <i>J. H. Schafer, R. K. Christenson, H. S. Teague and A. P. Grijo, Jr</i> .....	722
Early Pregnancy Diagnosis Based upon Plasma Progesterone Levels in the Cow and Ewe. <i>M. Shemesh, N. Ayalon and H. R. Lindner</i> .....	726
Insulin Turnover and Irreversible Loss Rate in Horses. <i>J. E. Madigan and J. W. Evans</i> .....	730
Effects of Early Weaning on Postpartum Reproduction of Cows. <i>D. B. Laster, H. A. Glimp and K. E. Gregory</i> .....	734
Effect of Melengestrol Acetate on Rate of Excretion of Estrogen in Urine of Dairy Heifers. <i>R. D. Randel, C. J. Callahan, R. E. Erb, H. A. Garverick and B. L. Brown</i> .....	741
 <b>Ruminant Nutrition</b>	
Difficulties Associated with the Use of Tritiated Polyethylene Glycol as a Water-Soluble Digestion Marker in Ruminants. <i>T. S. Neudoerfer, D. R. McLaughlin, S. J. Slinger and F. D. Horney</i> .....	749
Quality of Diets Selected by Grazing Animals and Its Relation to Quality of Available Forage and Species Composition of Pastures. <i>Samuel W. Coleman and Karl M. Barth</i> .....	754
Effect of Castration, Ration and Hormone Implants on the Performance of Finishing Cattle. <i>L. F. Laflamme and T. D. Burgess</i> .....	762
Effect of Lignin on the <i>In Vitro</i> Digestibility of Wood Pulp. <i>A. J. Baker</i> .....	768
Influence of Concentration of Dietary Energy on Protein Needs of Growing-Finishing Cattle. <i>L. A. Peterson, E. E. Hatfield and U. S. Garrigus</i> .....	772
Protein Concentration and Sources for Finishing Ruminants Fed High-Concentrate Diets. <i>W. L. Braman, E. E. Hatfield, F. N. Owens and J. M. Lewis</i> ..	782
Dairy Cattle Manure Liquid:Solid Separation with a Screw Press. <i>J. R. Menear and L. W. Smith</i> .....	788
Estimated Digestibility of Some Southern Browse Tissues. <i>H. L. Short, R. M. Blair and E. A. Epps, Jr</i> .....	792
Range Behavior of Hereford, Hereford X Holstein and Holstein Non-Lactating Heifers. <i>J. R. Kropp, J. W. Holloway, D. F. Stephens, Leon Knori, R. D. Morrison and Robert Totusek</i> .....	797
Performance and Plasma Amino Acids of Steers Fed Soybean Meal, Urea or No Supplemental Nitrogen in Finishing Rations. <i>A. W. Young, J. A. Boling and N. W. Bradley</i> .....	803
 <b>Other</b>	
Placement .....	809
News and Notes.....	811
