

# Journal of ANIMAL SCIENCE

Volume 50

April 1980

Number 4

## TABLE OF CONTENTS

APPLIED ANIMAL SCIENCE	Page
Protein Levels with and without Monensin for Finishing Steers. <i>W. R. Thompson and J. G. Riley</i> . . . . .	563
Effect of Sewage Sludge Diets Fed Swine on Nutrient Digestibility, Reproduction, Growth and Minerals in Tissues. <i>J. Beaudouin, R. L. Shirley and D. L. Hammell</i> . . . . .	572
Effect of Soybean, Feather and Hair Meal Protein on Dry Matter, Energy and Nitrogen Utilization by Growing Steers. <i>Mary I. Wray, W. M. Beeson and T. W. Perry</i> . . . . .	581
Effects of Dietary Energy, Free Choice Alfalfa Hay and Mass Medication on Calves Subjected to Marketing and Shipping Stresses. <i>Glen P. Lofgreen, L. H. Stinocher and H. E. Kiesling</i> . . . . .	590
Relationships between Ewe Milk Production and Composition and Prewaning Lamb Weight Gain. <i>Glafiro Torres-Hernandez and William Hobenboken</i> . . . . .	597
Performance of Landrace, Yorkshire and Duroc Sired Pigs from Landrace Sows. <i>Daryl L. Kublers, Steve B. Jungst and Ronnie L. Edwards</i> . . . . .	604
Mastitis and Udder Abnormalities as Related to Neonatal Lamb Mortality in Shed-Lambed Range Ewes. <i>John H. Kirk, E. M. Huffman and Bruce C. Anderson</i> . . . . .	610
Effects of Stage of Maturity and Silage Additives upon the Yield of Gross and Digestible Energy in Sorghum Silage. <i>J. R. Black, L. O. Ely, M. E. McCullough and E. M. Sudweeks</i> . . . . .	617
Chemical Composition of Sunflower Silage as Influenced by Additions of Urea, Dried Whey and Sodium Hydroxide. <i>D. J. Schingoetbe, E. W. Skyberg and J. A. Rook</i> . . . . .	625
Effect of Sheep Breed and Sex on Accumulation and Depletion of Ronnel in Fat. <i>L. M. Hunt, B. N. Gilbert and D. E. Hopkins</i> . . . . .	630
<b>BREEDING AND GENETICS</b>	
Estimation of Genetic Variances and Covariances Using Symmetric Differences Squared. <i>L. W. Grimes and W. R. Harvey</i> . . . . .	634
Reproductive Performance and Birth Characters of Divergent Breeds and Crosses of Beef Cattle. <i>Curtiss M. Bailey and J. D. Moore</i> . . . . .	645
Estimation of Additive and Nonadditive Direct and Maternal Genetic Effects from Crossbreeding Beef Cattle. <i>E. U. Dillard, Oswaldo Rodriguez and O. W. Robison</i> . . . . .	653
Effects of Maternal Environment and Selection for Litter Size and Body Weight on Biomass and Feed Efficiency in Mice. <i>E. J. Eisen and B. S. Durrant</i> . . . . .	664
Effect of Litter Size at Birth on Lactation in Mice. <i>E. J. Eisen, J. Nagai, H. Bakker and J. F. Hayes</i> . . . . .	680
Reproductive Performance of Angus, Brahman, Charolais and Crossbred Dams. <i>F. M. Peacock and M. Koger</i> . . . . .	689

## MEAT SCIENCE AND MUSCLE BIOLOGY

Electrical Stimulation of Mature Cow Carcasses. <i>F. K. McKeith, G. C. Smith, J. W. Savell, T. R. Dutson, Z. L. Carpenter and D. R. Hammons</i> . . . . .	694
Alternative Market Weights for Swine. II. Carcass Composition and Meat Quality. <i>A. H. Martin, A. P. Sather, H. T. Fredeen and R. W. Jolly</i> . . . . .	699

## PHYSIOLOGY AND ENDOCRINOLOGY

Effects of Various Hormone Treatments on Induction of Lactation in the Ewe. <i>H. H. Head, C. Delouis, M. Terqui, G. Kann and J. Djiane</i> . . . . .	706
Physiological and Urinary Metabolite Responses to Cold Shock and Confinement of Sheep. <i>D. G. Berman, D. E. Johnson, R. W. Phillips and B. P. Barry</i> . . . . .	713

## RUMINANT NUTRITION

Degradation of Soluble and Insoluble Proteins by <i>Bacteroides amylophilus</i> Protease and by Rumen Microorganisms. <i>S. Mahadevan, J. D. Erfle and F. D. Sauer</i> . . . . .	723
Evaluation of Corn Silage Treated with Microbial Additives. <i>S. R. Burghardi, R. D. Goodrich and J. C. Meiske</i> . . . . .	729
Processing Factors Affecting Degradability of Fish Meal in the Rumen. <i>A. Z. Mebrez, E. R. Ørskov and J. Opstvedt</i> . . . . .	737
Effect of Sodium Hydroxide Treatment on Rate of Passage and Rate of Ruminant Fiber Digestion. <i>L. L. Berger, T. J. Klopfenstein and R. A. Britton</i> . . . . .	745
Influence of Formaldehyde Treatment of Soybean Meal on Performance of Growing Steers and Protein Availability in the Chick. <i>J. W. Spears, E. E. Hatfield and J. H. Clark</i> . . . . .	750
News and Notes . . . . .	756
Erratum . . . . .	760
Placement . . . . .	761
Memorial . . . . .	765
