

Journal of ANIMAL SCIENCE

Volume 51

JULY 1980

Number 1

TABLE OF CONTENTS

APPLIED ANIMAL SCIENCE	Page
Hastening Drying Rate of Cut Alfalfa with Chemical Treatment. <i>M. Wiegbert, J. W. Thomas and M. B. Tesar</i>	1
Estimation of Probability of Beef Cows Being Culled and Calculation of Expected Herd Life. <i>R. C. Greer, R. W. Whitman and R. R. Woodward</i>	10
Digestibility of Untreated and Hydroxide-Treated Annual Ryegrass Straw. <i>D. C. Church and K. A. Champe</i>	20
Digestibility of Dried Bakery Product by Sheep. <i>K. A. Champe and D. C. Church</i>	25
Alternative Market Weights for Swine I. Feedlot Performance. <i>A. P. Sather, A. H. Martin, R. W. Jolly and H. T. Fredeen</i>	28
Adjustment of 21-Day Litter Weight for Number of Pigs Nursed for Purebred and Crossbred Dams. <i>E. R. Wilson and R. K. Johnson</i>	37
Patterns of Change in Mature Angus Cow Weight and Fatness During the Year. <i>W. F. Brown, J. W. Holloway and W. T. Butts, Jr.</i>	43
BREEDING AND GENETICS	
Effects of Protein, Breed Cross, Sex and Slaughter Weight on Swine Performance and Carcass Traits. <i>L. L. Christian, K. L. Strock and J. P. Carlson</i>	51
MEAT SCIENCE AND MUSCLE BIOLOGY	
Yields and Dimensions of Pork Bellies in Relation to Carcass Measurements. <i>H. T. Fredeen</i>	59
A Comparison of Heat-Induced Gel Strengths of Bovine Plasma and Egg Albumen Proteins. <i>D. W. Hickson, C. W. Dill, R. G. Morgan, D. A. Suter and Z. L. Carpenter</i>	69
Urinary and Caudate Nuclei Catecholamine Levels in Stress-Susceptible and Normal Swine. <i>Douglas M. Altrogge, David G. Topel, Margaret A. Cooper, John W. Hallberg and Donald D. Draper</i>	74
Diet Energy and Steer Type Effects on Adipose Composition, Lipogenesis and Carcass Composition. <i>H. D. Loveday and M. E. Dikeman</i>	78
NONRUMINANT NUTRITION	
Effect of Dietary Lactose on Gain, Feed Conversion, Blood, Bone and Intestinal Parameters in Postweaning Rats and Swine. <i>R. L. Moser, E. R. Peo, Jr., T. D. Crenshaw and P. J. Cunningham</i>	89
Effect of Various Levels of Dietary Calcium and Phosphorus on Performance, Blood and Bone Parameters in Growing Boars. <i>R. D. Nimmo, E. R. Peo, Jr., B. D. Moser, P. J. Cunningham, D. G. Olson and T. D. Crenshaw</i>	100

Response of Different Genetic Lines of Boars to Varying Levels of Dietary Calcium and Phosphorus. <i>R. D. Nimmo, E. R. Peo, Jr., B. D. Moser, P. J. Cunningham, T. D. Crenshaw and D. G. Olson</i>	112
Effects of Dietary Cellulose and Neomycin on Function of the Cecum of Pigs. <i>Juan Gargallo and Dean R. Zimmerman</i>	121
Nutritive Value of Green or Yellow Foxtail, Wild Oats, Wild Buckwheat or Redroot Pigweed Seed as Determined with the Rat. <i>R. L. Harrold, D. L. Craig, J. D. Nalewaja and B. B. North</i>	127

PHYSIOLOGY AND ENDOCRINOLOGY

Postnatal Changes in Concentrations of Serum and Urinary Thyroxine and 3, 3', 5-Triiodothyronine in the Pig. <i>R. O. Parker, P.E.V. Williams, F. X. Aberne and B. A. Young</i>	132
Ontogeny of the Adrenal and Behavioral Responses of Lambs to Emotional Stress. <i>G.P. Moberg, C. O. Anderson and T. R. Underwood</i>	138
Variables Associated with Peripartum Traits in Dairy Cows. VII. Hormones, Calf Traits and Subsequent Milk Yield. <i>R. E. Erb, B. P. Chew, P. V. Malven, M. Frances D'Amico, Claudie N. Zamet and V. F. Colenbrander</i>	143
The Effects of Triamcinolone Acetonide on Plasma Glucocorticoid Levels and Occurrence of Estrus in Gilts. <i>K. L. Esbenshade and B. N. Day</i>	153

RUMINANT NUTRITION

Determining Effects of Monensin on Energy Value of Corn Silage Diets for Beef Cattle by Linear or Semi-Log Methods. <i>F. M. Byers</i>	158
Effects of Monensin and Amicloral on Rumen Fermentation. <i>William Chalupa, William Corbett and J. R. Brethour</i>	170
Effect of Lactose Supplement on Digestion of Lucerne Hay by Sheep. I. Sites of Organic Matter and Nitrogen Digestion. <i>C. Poncet and Y. Rayssiguier</i>	180
Effect of Lactose Supplement on Digestion of Lucerne Hay by Sheep. II. Absorption of Magnesium and Calcium in the Stomach. <i>Y. Rayssiguier and C. Poncet</i>	186
Apparatus for Measuring and Subsampling Digesta in Ruminants Equipped with Reentrant Intestinal Cannulus. <i>R. A. Zinn, L. S. Bull, R. W. Hemken, F. S. Button, C. Enlow and R. W. Tucker</i>	193
Digestibility of Potato Processing Residue in Beef Cattle Finishing Diets. <i>D. L. Stanhope, D. D. Hinman, D. O. Everson and R. C. Bull</i>	202
Inhibition of Ruminal Degradation of L-Tryptophan to 3-Methylindole, <i>In Vitro</i> . <i>Andrew C. Hammond and James R. Carlson</i>	207
Digestibility of Chemically Treated Cotton Plant Byproduct and Effect on Mineral Balance, Urine Volume and pH. <i>D. L. Arndt, C. R. Richardson, R. C. Albin and L. B. Sherrod</i>	215
Gastrointestinal Tract pH Environment and the Influence of Buffering Materials on the Performance of Ruminants. <i>William E. Wheeler</i>	224
Reports from Representatives of the Society	236
Committee Reports	238
News and Notes	251
Placement	252
Memorials	255
