

CONTENTS

ANIMAL GENETICS

Molecular Genetics

- Polymorphisms and haplotypes in the bovine neuropeptide Y, growth hormone receptor, ghrelin, insulin-like growth factor 2, and uncoupling proteins 2 and 3 genes and their associations with measures of growth, performance, feed efficiency, and carcass merit in beef cattle. *E. L. Sherman, J. D. Nkrumah, B. M. Murdoch, C. Li, Z. Wang, A. Fu, and S. S. Moore* 1
- The value of DNA paternity identification in beef cattle: Examples from Nevada's free-range ranches. *L. Gomez-Raya, K. Priest, W. M. Rauw, M. Okomo-Adhiambo, D. Thain, B. Bruce, A. Rink, R. Torell, L. Grellman, R. Narayanan, and C. W. Beattie* 17

Quantitative Genetics

- Comparative genomic imprinting and expression analysis of six cattle genes. *I. Zaitoun and H. Khatib* 25
- Genotype by environment interaction for lamb weaning weight in two Norwegian sheep breeds. *G. Steinheim, J. Ødegård, T. Ådnøy, and G. Klemetsdal* 33
- Genetic parameters for image analysis traits on *M. longissimus thoracis* and *M. trapezius* of carcass cross section in Japanese Black steers. *T. Osawa, K. Kuchida, S. Hidaka, and T. Kato* 40
- Indicators of genetic erosion in an endangered population: The Alentejana cattle breed in Portugal. *N. Carolino and L. T. Gama* 47

ANIMAL GROWTH, PHYSIOLOGY, AND REPRODUCTION

Growth and Developmental Biology

- Sterol regulatory element binding transcription factor 1 expression and genetic polymorphism significantly affect intramuscular fat deposition in the longissimus muscle of Erhualian and Sutai pigs. *J. Chen, X. J. Yang, D. Xia, J. Chen, J. Wegner, Z. Jiang, and R. Q. Zhao* 57
- Ectopic expression of porcine peroxisome proliferator-activated receptor δ regulates adipogenesis in mouse myoblasts. *Y. H. Yu, S. C. Wu, W. T. K. Cheng, H. J. Mersmann, and S. T. Ding* 64
- Optimization of in vitro conditions for bovine subcutaneous and intramuscular preadipocyte differentiation. *A. C. Grant, G. Ortiz-Colòn, M. E. Doumit, and D. D. Buskirk* 73

Physiology, Endocrinology, and Reproduction

- Gonadotropin-releasing hormone-induced ovulation and luteinizing hormone release in beef heifers: Effect of day of the cycle. *J. A. Atkins, D. C. Busch, J. F. Bader, D. H. Keisler, D. J. Patterson, M. C. Lucy, and M. F. Smith* 83

ANIMAL NUTRITION

Nonruminant Nutrition

- Use of mannan-oligosaccharides and zinc chelate as growth promoters and diarrhea preventative in weaning pigs: Effects on microbiota and gut function. *M. Castillo, S. M. Martín-Orúe, J. A. Taylor-Pickard, J. F. Pérez, and J. Gasa* 94
- Synergistic effects of betaine and conjugated linoleic acid on the growth and carcass composition of growing Iberian pigs. *I. Fernández-Fígares, J. A. Conde-Aguilera, R. Nieto, M. Lachica, and J. F. Aguilera* 102

Utilization of distillers dried grains with solubles and phytase in sow lactation diets to meet the phosphorus requirement of the sow and reduce fecal phosphorus concentration. <i>G. M. Hill, J. E. Link, M. J. Rincker, D. L. Kirkpatrick, M. L. Gibson, and K. Karges</i>	112
The effects of feeding rice in substitution of corn and the degree of starch gelatinization of rice on the digestibility of dietary components and productive performance of young pigs. <i>B. Vicente, D. G. Valencia, M. Pérez-Serrano, R. Lázaro, and G. G. Mateos</i>	119
Assessment of lactose level in the mid- to late-nursery phase on performance of weanling pigs. <i>G. L. Cromwell, G. L. Allee, and D. C. Mahan</i>	127

Ruminant Nutrition

Effect of intake level and alfalfa substitution for grass hay on ruminal kinetics of fiber digestion and particle passage in beef cattle. <i>S. A. Bhatti, J. G. P. Bowman, J. L. Firkins, A. V. Grove, and C. W. Hunt</i>	134
Evaluation of secondary protein nutrients as a substitute for soybean meal in diets for beef steers and meat goats. <i>S. R. Freeman, M. H. Poore, G. B. Huntington, and T. F. Middleton</i>	146
The interaction of harvesting time of day of switchgrass hay and ruminal degradability of supplemental protein offered to beef steers. <i>G. B. Huntington and J. C. Burns</i>	159
Effects of grain processing and dietary lipid source on performance, carcass characteristics, plasma fatty acids, and sensory properties of steaks from finishing cattle. <i>H. J. LaBrune, C. D. Reinhardt, M. E. Dikeman, and J. S. Drouillard</i>	167
Bioavailability of copper from copper glycinate in steers fed high dietary sulfur and molybdenum. <i>S. L. Hansen, P. Schlegel, L. R. Legleiter, K. E. Lloyd, and J. W. Spears</i>	173
The relationship of feeding behavior to residual feed intake in crossbred Angus steers fed traditional and no-roughage diets. <i>J. W. Golden, M. S. Kerley, and W. H. Kolath</i>	180
Supplemental algal meal alters the ruminal <i>trans</i> -18:1 fatty acid and conjugated linoleic acid composition in cattle. <i>M. M. Or-Rashid, J. K. G. Kramer, M. A. Wood, and B. W. McBride</i>	187
Tolerance of ruminant animals to high dose in-feed administration of a selenium-enriched yeast. <i>D. T. Juniper, R. H. Phipps, D. I. Givens, A. K. Jones, C. Green, and G. Bertin</i>	197

ANIMAL PRODUCTS

Meat Science and Muscle Biology

Effects of ractopamine supplementation and postmortem aging on longissimus muscle palatability of beef steers differing in biological type. <i>S. L. Gruber, J. D. Tatum, T. E. Engle, K. J. Prusa, S. B. Laudert, A. L. Schroeder, and W. J. Platter</i>	205
Predicting beef tenderness using near-infrared spectroscopy. <i>S. R. Rust, D. M. Price, J. Subbiah, G. Kranzler, G. G. Hilton, D. L. Vanoverbeke, and J. B. Morgan</i>	211

ANIMAL PRODUCTION

Behavior

Effects of weaning lambs in two stages or by abrupt separation on their behavior and growth rate. <i>C. Schichowski, E. Moors, and M. Gauly</i>	220
---	-----

Environment

A new heat load index for feedlot cattle. <i>J. B. Gaughan, T. L. Mader, S. M. Holt, and A. Lisle</i>	226
---	-----
