

CONTENTS

NONRUMINANT NUTRITION

Understanding Protein Synthesis and Degradation and Their Pathway Regulations for Improving Monogastric Production Efficiency and Product Quality

- Nonruminant Nutrition symposium: Understanding protein synthesis and degradation and their pathway regulations *M. Z. Fan, S. W. Kim, T. J. Applegate, and M. Cervantes*..... E1
- Measuring in vivo intracellular protein degradation rates in animal systems *W. G. Bergen* E3
- Postnatal ontogeny of skeletal muscle protein synthesis in pigs *T. A. Davis, A. Suryawan, R. A. Orellana, H. V. Nguyen, and M. L. Fiorotto* E13
- Myofibrillar protein turnover: The proteasome and the calpains *D. E. Goll, G. Neti, S. W. Mares, and V. F. Thompson*..... E19
- The mammalian target of rapamycin-signaling pathway in regulating metabolism and growth *X. Yang, C. Yang, A. Farberman, T. C. Rideout, C. F. M. de Lange, J. France, and M. Z. Fan* E36

TRIENNIAL GROWTH SYMPOSIUM

Exploring the Interface between Growth Biology and Immunology

- Triennial Growth Symposium: Exploring the interface between growth and immunology *N. E. Forsberg and M. Cannon*..... E51
- Immunological signaling networks: Integrating the body's immune response *J. D. Lippolis* E53
- Integrating the immune system with the regulation of growth and efficiency *N. K. Gabler and M. E. Spurlock* E64
- Interleukin-15: A muscle-derived cytokine regulating fat-to-lean body composition *L. S. Quinn* E75
- Regulation of muscle growth by pathogen-associated molecules *R. A. Frost and C. H. Lang* E84
- Insulin resistance induced by tumor necrosis factor- α in myocytes and brown adipocytes *M. Lorenzo, S. Fernández-Veledo, R. Vila-Bedmar, L. Garcia-Guerra, C. De Alvaro, and I. Nieto-Vazquez* E94
- Critical control points in the impact of the proinflammatory immune response on growth and metabolism *T. H. Elsasser, T. J. Caperna, C-J. Li, S. Kahl, and J. L. Sartin*..... E105
- Bidirectional communication: Growth and immunity in domestic livestock *J. A. Carroll* E126

NONRUMINANT NUTRITION

Natural Phytobiotics for Health of Young Animals and Poultry: Mechanisms and Application

- Nonruminant Nutrition symposium on natural phytobiotics for health of young animals and poultry: Mechanisms and application *S. W. Kim, M. Z. Fan, and T. J. Applegate* E138
- Use of phytogenic products as feed additives for swine and poultry *W. Windisch, K. Schedle, C. Plitzner, and A. Kroismayr*..... E140

FOOD SAFETY

Current and Future *Salmonella* Challenges

Salmonella challenges: Prevalence in swine and poultry and potential pathogenicity of such isolates *S. L. Foley, A. M. Lynne, and R. Nayak* E149

Gastrointestinal microbial ecology and the safety of our food supply as related to *Salmonella* *T. R. Callaway, T. S. Edrington, R. C. Anderson, J. A. Byrd, and D. J. Nisbet* E163

Food animal-associated *Salmonella* challenges: Pathogenicity and antimicrobial resistance *S. L. Foley and A. M. Lynne* E173

Early Career Investigator Award

A decade of developments in the area of fat supplementation research with beef cattle and sheep *B. W. Hess, G. E. Moss, and D. C. Rule* E188

GROWTH AND DEVELOPMENT

Transcriptional Factors and Cell Mechanisms for Regulation of Growth and Development with Application to Animal Agriculture

Growth and development symposium: Transcriptional factors and cell mechanisms for regulation of growth and development with application to animal agriculture *H. Chester-Jones and S. G. Velleman* E205

Defining the transcriptional signature of skeletal muscle stem cells *Z. Yablonka-Reuveni, K. Day, A. Vine, and G. Shefer* E207

Cellular and molecular regulation of muscle growth and development in meat animals *W. R. Dayton and M. E. White* E217

Application of cellular mechanisms to growth and development of food producing animals *K. Y. Chung and B. J. Johnson* E226

GROWTH AND DEVELOPMENT, MUSCLE BIOLOGY, AND MEAT SCIENCE

Pork Quality: Integrating Biology to Carcass Value and Consumer Demand

The influence of thiazolidinediones on adipogenesis in vitro and in vivo: Potential modifiers of intramuscular adipose tissue deposition in meat animals *G. J. Hausman, S. P. Poulos, T. D. Pringle, and M. J. Azain* E236

SHEEP

Biology and Management of Low-Input Lambing Management in Easy-Care Systems

Sheep symposium: Biology and management of low-input lambing in easy-care systems *M. L. Thonney, P. A. Martinez-Hernandez, J. B. Taylor, and D. L. Thomas* E244

Genetic and physiological determinants of maternal behavior and lamb survival: Implications for low-input sheep management *C. M. Dwyer* E246

Management of maternal-offspring behavior to improve lamb survival in easy care sheep systems *J. M. Everett-Hincks and K. G. Dodds* E259

What does it mean to be locally adapted and who cares anyway? *F. D. Provenza* E271

ALPHARMA BEEF CATTLE NUTRITION

Manipulation of Nutrient Synchrony

Alpharma Beef Cattle Nutrition symposium: Manipulation of nutrient synchrony *C. R. Krehbiel, C. A. Bandyk, M. J. Hersom, and M. E. Branine* E285

Nutrient synchrony: Sound in theory, elusive in practice *M. B. Hall and G. B. Huntington* E287

Nitrogen recycling through the gut and the nitrogen economy of ruminants: An asynchronous symbiosis *C. K. Reynolds and N. B. Kristensen* E293

Opportunities to enhance performance and efficiency through nutrient synchrony
in forage-fed ruminants *M. J. Hersom* E306

Opportunities to enhance performance and efficiency through nutrient synchrony
in concentrate-fed ruminants *N. A. Cole and R. W. Todd* E318
